- 13) Did the ice-age really exist? If so, how long ago?
- 14) What caused the ice-age?
- 15) What volcano caused two years without summer?
- 16) How much ice have we seen accumulate in 48 years? How deep are the deepest ice cores drilled today? How do these ice cores show the earth to be young?
- 17) What is the best setting for a hyberbaric chamber?
- 18) What is England doing with hyberbaric chambers?
- 19) How tall has a cherry tomato plant gotten?
- 20) How does Dr. Eugenia Scott thinks coal formed? What is the Biblical explanation?
- 21) How long does it take fossils to form? Give two examples to show this.
- 22) What do polystrate fossils, like the whale, show about burial and the accumulation of the earth's layers?
- 23) List three secular views of what happened to the dinosaurs.
- 24) What did Nebraska man turn out to be?
- 25) What is significant about Lucy's knee joint?
- 26) Dinosaur's having a small rib cage suggests what about the rest of their body?
- 27) How big was the nostril of most large dinosaurs?
- 28) How could the Pterontadon fly with such a large wingspan yet with such small legs?
- 29) What do the valves in the neck of the giraffe do?
- 30) Give two chapters of the Bible that talk about dinosaurs? What are their names?
- 31) Is the word dinosaur in the Bible? Why or why not?

- 5) Psalm 24:1-2, Psalm 136:6
- 6) Into our present oceans and lakes
- 7) The mountains, the valleys, a boundary
- 8) Solar radiation less before flood, gene pool purer before the flood, more oxygen and air pressure
- 9) Probably a population division after the tower of Babel during the ice-age.
- 10) 930
- 11) longer
- 12) wear on the teeth suggest the children were actually adults
- 13) Yes, anywhere from 4300-4500 years ago.
- 14) Volcanic gases causing colder climates
- 15) Tambora in 1815
- 16) 263 ft, 10,000 ft., 10,000 ft of ice divided by the 5.5 ft (observed rate of ice accumulation) plus allowing for compression rates puts the ice age as occurring about 4400 years ago. Perfectly in line with Noah's Flood ending.
- 17) 25-28% Oxygen and twice the pressure.
- 18) 6000 Multiple Sclerosis patients are now being treated.
- 19) 40 ft.
- 20) Year upon year the vegetation grew and died until millions of years of accumulations were buried and compressed into coal. The Bible record's Noah's Flood that would bring vast amounts of vegetation to general locations and deposit it. It would then get buried by Flood sediments or covered by a continent.
- 21) Less than 50 years. Fossilized felt hat, flour sack or cowboy leg.
- 22) Polystrate fossils show things were buried rapidly. Animals and trees can't remain unburied without rotting or being scavenged.
- 23) Climate too warm, plant that caused constipation, mammals ate reptile eggs, starved, meteor, turned into birds.
